

SEAN WANG

MOBILE GAME ARTIST | UNITY | 3D / UI / OPTIMIZATION

Xiamen, China | +86 176 0594 9491 | 1678145314@qq.com | Portfolio: xbin1678145314-spec.github.io/portfolio/

PROFILE

Mobile game artist with 4+ years of commercial experience on overseas casual titles. I handle 3D assets, UI, materials, animation/VFX adaptation and Unity implementation, and stay involved through returned-build review and mobile optimization. My Tiny Tower has reached 10M+ Google Play downloads.

EXPERIENCE

Xiamen Henwen Interactive Technology Co., Ltd. | 3D Game Artist | May 2022 - Present

- Produce complete art packages for casual mobile games: environments, buildings, props, character-related assets, UVs/textures, materials, UI, rigging/skinning, animation setup, basic VFX and Unity scene assembly.
- Turn written briefs into visual references, composition, color/material choices and practical in-game solutions within the project style.
- Review returned builds with programmers, track visual/UI/animation issues and verify fixes through final presentation.
- Optimize mobile art through mesh reduction, material/texture cleanup, asset-size control and Batch reduction; use Frame Debugger and work with GPU Instancing or Dynamic Batching when useful.
- Prepare lightweight Unity assets for Cocos Creator playable tests and create Google Play icons and store screenshots.

Quanzhou Dasqi Digital Technology Co., Ltd. | 3D Designer | Aug 2021 - Apr 2022

- Built product/environment assets in Cinema 4D, created basic materials and lighting, rendered with Redshift/Octane and finished simple presentation animation/post work.

SKILLS

3D / UI Cinema 4D, environments, buildings, props, character-related assets, UV/textures, UI	Unity Scene, Prefab, Material, UI, Animation, Animator, basic VFX
