

SEAN WANG

3D GAME GENERALIST | UNITY | MOBILE GAME ART

Xiamen, China | +86 176 0594 9491 | 1678145314@qq.com | Portfolio

PROFESSIONAL SUMMARY

3D Game Generalist with 5 years of 3D art experience, including 4+ years delivering overseas casual mobile games. Experienced in end-to-end art ownership from visual reference development and 3D production to Unity implementation, art QA, live-ops iteration and mobile optimization. Served as the sole project artist responsible for end-to-end art delivery on multiple shipped titles, including My Tiny Tower with 10M+ Google Play downloads.

CORE SKILLS

3D Art: Cinema 4D, modeling, UVs, texturing, materials, environments, buildings, props and character-related assets

Unity Production: scene assembly, Prefab organization, material/UI setup, Animation, Animator, basic particle/trail effects and VFX integration

Mobile Optimization: mesh reduction, material cleanup, texture compression, asset-size control, Batch optimization, Frame Debugger, GPU Instancing and Dynamic Batching

Additional: Photoshop, Redshift, Octane, Unity-to-Cocos Creator playable-ad asset preparation, Google Play icons and store screenshots

PROFESSIONAL EXPERIENCE

Xiamen Henwen Network Technology Co., Ltd. | 3D Game Artist | Xiamen, China **May 2022 - Present**

- Own end-to-end art production and Unity delivery for overseas casual mobile projects, translating design briefs into visual references, composition choices and practical in-game art solutions.
- Create environments, buildings, props, character-related 3D assets, UVs, textures, materials and UI within established product style and proportion guidelines.
- Implement art in Unity through scene assembly, Prefab organization, material/UI configuration, object and UI Animation, Animator integration, and basic particle/trail/VFX adaptation.
- Collaborate with programmers on feature integration and conduct art QA on returned builds, identifying visual bugs, presentation issues and required art-side revisions.
- Optimize mobile art through mesh reduction, material cleanup, texture compression, asset-size and Batch control; use Frame Debugger plus GPU Instancing or Dynamic Batching when appropriate.
- Prepare lightweight Unity art assets for Cocos Creator playable-ad tests and produce Google Play icons, store screenshots and related promotional art.

Selected impact: My Tiny Tower reached 10M+ Google Play downloads; maintained stable 60 FPS on low-end Android devices within target art budgets; reduced Batches in a high-instance scene from about 300 to about 150.

Quanzhou Dasqi Digital Technology Co., Ltd. | 3D Designer | Quanzhou, China **Aug 2021 - Apr 2022**

- Created product and environment 3D assets and UVs in Cinema 4D.
- Built basic materials and lighting and rendered product/environment visuals with Redshift and Octane.
- Produced simple product rotation animations and completed visual post-production in Photoshop.

SELECTED COMMERCIAL PROJECTS

My Tiny Tower | *Sole Project Artist* | Nov 2022 - Present

Owned the project's primary art production and long-term visual updates, covering buildings, environments, props, character-related assets, UVs/textures, materials, UI, animation, basic VFX adaptation, Unity implementation and art-performance control.

Impact: 10M+ Google Play downloads | ~4 years live operation and iteration | long-term A/B test D1 retention 32%-35% | initial CPI ~\$0.33 | Brazil D1 ROI reached 114%.

Idle Oil Well | *Sole Project Artist* | Apr 2023 - Present

Led full art production and Unity implementation for an industrial idle title, including industrial environments/buildings, machinery and props, character/basic animation, UI, materials, scene assembly, VFX adaptation, mobile optimization and ongoing live updates.

Impact: 1M+ Google Play downloads | initial CPI ~\$0.56 | initial D1 retention ~39% | D1 session length ~30 min | long-term D1 retention ~35% | ~3 years of continued operation and A/B testing.

Sunshine Power | *Sole Project Artist* | Jan 2024 - Present

Delivered complete project art production and Unity implementation across environments, buildings, assets, UI, animation and mobile visual optimization.

Impact: 1M+ Google Play downloads | initial CPI ~\$0.56 | D1 retention ~39% | D1 session length ~30 min.

Shooting Range Inc | *Sole Project Artist* | Apr 2024 - Present

Delivered complete project art production and Unity implementation across environments, buildings, assets, UI, animation and mobile visual optimization.

Impact: 1M+ Google Play downloads | initial CPI ~\$0.51 | D1 retention ~36.5% | D1 session length ~30 min.

Cat Train Tycoon | *Sole Project Artist* | Aug 2025 - Present

Owned the overall art production and Unity delivery for a cute/cartoon management game, including cat character resources, train and station environments, buildings, props, UI, materials, animation integration, scene assembly, basic visual effects and mobile optimization.

Impact: 500K+ Google Play downloads.

EDUCATION

Quanzhou Huaguang Vocational College | **Diploma, Animation Production**

2019 - 2022

Technology | Quanzhou, China

Awarded Second Prize Academic Scholarship. Coursework included Cinema 4D, After Effects, 3ds Max, Maya and Photoshop digital painting.
